No. 9/36/2017-CD (CEN) **Dated: 13th August, 2025**

Census of India 2027 – Circular No. 1

Subject: Planning for the Census 2027- Jurisdictional changes and lists of districts, tehsils/talukas/ C.D. Blocks, towns and villages- Compilation thereof.

As you are aware, the notification of intent to conduct the Census 2027 has already been issued. The Houselisting and Housing Census (Phase-I) would be undertaken in one month's time during the period April-September, 2026 as per the convenience of the State/Union Territory and the Population Enumeration (Phase-II) would be conducted in February, 2027 (September, 2026 in UT of Ladakh and snow bound non-synchronous areas of the UT of Jammu & Kashmir, and the states of Himachal Pradesh and Uttarakhand). This is a gigantic task of national importance. Like the previous censuses, every stage of work is to be accomplished with great care and in a time bound manner.

2. The basic purpose of the census being enumeration of all individuals in the country without any omission or duplication, preparation of a complete and updated list of all territorial entities in the entire country well in advance of the next census is required. It is needless to mention that each state or union territory is divided into districts, each district into sub-districts/tehsils/talukas/—/community development blocks etc. and further into towns/wards in urban areas and villages in rural areas. As such, an important preparatory work in connection with the Census 2027 is to collect and compile the details of all the

jurisdictional changes that have occurred so far after the Census 2011 and that will occur hereafter till the freezing of the boundaries of the administrative units for Census 2027, i.e. up to 31st December, 2025. The jurisdictional changes may include any of the changes listed below:

a) Creation of new districts.
b) Change in jurisdiction of existing districts.
c) De-notification of existing districts.
d) Creation of new sub-districts.
e) Change in jurisdiction of existing sub-districts.
f) De-notification of existing sub-districts.
g) Creation of new village by splitting/merging of existing village.
h) Change in jurisdiction of existing town area.
i) Exclusion of areas from town.
j) Notification of new town.
k) De-Notification of existing town.
l) Change in name/spelling of the above entities.
m) Change in the ward boundaries of a town.
n) Any other jurisdictional changes.

3. There would have been several jurisdictional changes in the boundaries of administrative units after Census 2011 and there may be more such changes till the date of freezing of boundaries for Census 2027. As a matter of practice and also as per the guidelines communicated to all Directorates of Census Operations (DCOs) vide Circular 1 for Census 2021 issued dated 22.12.2017, the DCOs have been obtaining notifications on jurisdictional changes of various administrative units from the respective State/UT Government departments and scrutinizing the same. Accordingly, the census frame was finalized during 2019 but due to the postponement of Census 2021, this process has been continuing.

4. Now after the notification of the intent to conduct Census 2027, the DCOs are required to send the details of all jurisdictional changes as on 01.07.2025 (for the period from 01.01.2010 to 30.06.2025) by 22.08.2025 in the prescribed formats (Form ‘A’ to ‘E’ in Annexure-I and Summary Sheet in Annexure-II) along with the ‘For-Read’ statement in both soft (in excel) and hard copy. Similar information is to be supplied for the period 01.07.2025

to 31.12.2025 by 10.01.2026 which will provide the complete picture of jurisdictional changes up to 31.12.2025. In addition to this, the DCOs are requested to update all such information on the Jurisdictional Changes Portal (https://jurisdiction.census.gov.in) too.

5. The list of villages should include not only inhabited but also uninhabited ones as well as hamlets, if any. To speed-up the process of obtaining the complete list of villages along with hamlets, a copy of the list of villages as on 30.06.2025 available with DCOs may be sent to each Tahsildar or concerned sub-district level authority along with the latest sub-district level maps with the request to mark all type of changes in the list like creation or deletion of village(s), changes in the names, if any, etc. All the concerned State/UT authorities may be conveyed with a line of caution that in the past a number of court cases have been encountered due to non-inclusion of the genuine village(s) and/or reporting of incorrect name of the village in the Village list by some of the concerned sub-district level officers. The onus of preparing the correct and updated list of villages in connection with Census 2027, as such, would remain with the concerned sub-district level officers.

6. As regards, updating the list of towns, it is known that the State Governments establish Local bodies/Municipalities etc. through notifications in the official gazette within their jurisdiction from time to time. These notifications delineate areas which would indicate the municipal limits in terms of villages or parts thereof. Since Census 2011, there would have been several changes in the form of additions and deletions in the list of Local bodies. All DCOs should not only obtain a list of these towns from the concerned State Government Department (Local Self Government Department) but also procure copies of the document(s) for notification/de-notification of towns etc. or effecting jurisdictional changes in the boundaries of the existing towns.

7. Further, Urban Local Bodies (ULBs) may be requested to provide geospatial data of ward boundaries, if available. If geospatial data is not available, a hardcopy map of the town showing ward boundaries should be obtained. In cases where only hard copy maps are received, these will be digitized at DCOs. The procured/digitized ward boundaries will then be appended onto the Ward Map Web Service by updating the relevant attributes. This does not apply to Urban Local Bodies where there are no changes in jurisdiction or ward boundaries. As ward delimitation processes are at different stages across various States and

Union Territories, it is important to assess the current status and ensure timely updates of ward-level information.

8. All the Directorates of Census Operations may please note that any incompleteness in building up the frame on the basis of these lists may have serious consequences. Extreme care should be taken to ensure accuracy in updating the frame of all administrative units in each State/ Union Territory at all levels down up to town/wards and village. In order to carry out the above work properly and expeditiously, it would be desirable to nominate a suitable officer in the DCO to monitor all relevant information in this regard and to ensure that copies of the notifications effecting jurisdictional changes are collected on priority and further required actions have been undertaken.

9. All the DCOs are requested to sincerely put their efforts necessary for finalizing the jurisdictional changes in their States/UTs at all levels and comply with the directions given for the same on regular basis.
